

Because It's Not Over

The Special Projects Grant Program is designed to allow community-based agencies the opportunity to apply for funding for smaller one-time only projects.

All funded projects must comply with the priority target populations and interventions identified by the Nebraska HIV Care and Prevention Consortium. Projects *not* addressing these priorities *may* be funded, but will rate a lower priority.

FUNDING AVAILABLE

The total funds available are dependent on several variable factors, including spending levels of funded subgrantees, carryover funding at the State level, and supplemental funding from CDC. Parameters for individual projects are:

- ✕ Awards will be made twice a year with funding periods running from January 1 - June 30 and July 1 - December 31
- ✕ Maximum funding period is six months
- ✕ Awards will be made in amounts of \$500 - \$1,500

Example projects appropriate for funding might include:

- ✕ World AIDS Day Commemorative Events
- ✕ AIDS Awareness Month Events
- ✕ Special Outreach Events
- ✕ Community Workshops
